

15 Reasons Why We No Longer Vaccinate

By Kat Negrete 07/2021 @katnegrete www.KatNegreteTalent.com/health

#1. Vaccines contain aborted fetal baby parts. We are pro-life. The “Godfather of Vaccines,” Stanley Plotkin, [stated under oath](#) that ONE vaccine he oversaw used 76 aborted babies in its creation. That was just one vaccine. See this chart by [Children of God For Life](#) for a [list of all the vaccines that use aborted fetal parts](#).

ABORTED FETAL CELL LINE PRODUCTS FOR USA & CANADA - AND ETHICAL ALTERNATIVES (UPDATED Jan 2021)

Disease	Product Name	Manufacturer	Fetal Cell Line	Ethical Version	Manufacturer	Source/Cell
Acute Respiratory	Adenovirus 4,7 Oral	Barr Labs	WI-38	None	N/A	N/A
Chickenpox	All Varivax, Varilrix	Merck, GSK	WI-38, MRC-5	None	N/A	N/A
Cystic Fibrosis	Pulmozyme	Genentech	HEK-293	N-acetylcysteine, Hyper-sal	Various	N/A
Anemia, Cancer, Severe kidney disease	Procrit, Epoetin, Epogen Aranesp, Darbepoetin	Amgen	Erythropoietin gene, fetal liver lambda.hE1/	None	N/A	N/A
Covid-19 Development	Click Here for Full List	Several	HEK-293, PER C6	Click Here for Full List	Several	Several
Ebola - In Development	Advac, VSV-EBOV	J&J/Cruc; BioProt	PER C6, HEK-293	Ervebo (rVSV-ZEBOV) 2-2020	Merck	Vero
Heart problems	Abciximab (Repro)	Eli Lilly	HEK-293	Integrilin, Angiomax	Merck, Medicine Co.	N/A
Hemophilia	rhFVI, Nuwiq, Eloctate	Octapharma, BioGen	HEK-293	Advate, Kogenate	Baxter	Hamster
Hepatitis A	Vaqta, Havrix Avaxim, Epaxal	Merck, GSK Sanofi, Berna	MRC-5 MRC-5	Aimmmugen None in US or Canada	Kaketsuken (Japan only)	Vero (monkey)
Hepatitis A & B	Twinrix	GSK	MRC-5	Engerix Hep-B Only	GSK	Yeast
Hepatitis A & Typhoid	Vivaxim	Sanofi	MRC-5	Recombivax Hep-B, TyphimVi	Merck, Sanofi	Yeast
Infection prevention	G-CSF	Octapharma	HEK-293	Neupogen, Zarxio	Amgen, Sandoz	E-coli
Measles/Mumps/Rubella	MMR, Priorix	Merck, GSK	RA273, WI-38, MRC-5	MR+M (Japan only)	Mitsubishi, Kitasato	Egg, rabbit
Measles-Rubella	MR Vax, Eolarix	Merck, GSK.	RA273, WI-38, MRC-5	Attenuvax (Measles Only)* AIK-C + R, Tanabe, (Japan)	Merck Kitasato, Mitsubishi	Egg, rabbit, Egg
Mumps-Rubella	Biaavax II	Merck	RA273, WI-38	Mumpsavax (Mumps Only)*	Merck	Egg
Rubella	Meruvax II	Merck	RA273, WI-38	Matsuura, Takahashi (Japan)	Mitsubishi, Kitasato	Egg, rabbit
MMR + Chickenpox	ProQuad/MMR-V Priorix Tetra	Merck GSK	RA273, WI-38, MRC-5	None	N/A	N/A
Rabies	Imovax	Sanofi Pasteur	MRC-5	RabAvert	GSK	Egg
Rheumatoid Arthritis	Enbrel	Amgen	WI-26 VA4 - RDNA	Humira, Cimzia, Orenzia, Simponi	Abbott, UCB, BMS, Janssen	Hamster ImmuneGlobulin
Shingles	Zostavax	Merck.	WI-38, MRC-5	Shingrix	GSK	Hamster
Smallpox	Acambis 1000	Acambis	MRC-5	ACAM2000, MVA3000	Acambis/Baxter	Vero

Note: Immune-Globulin shots will provide temporary immunity (4-6 months) for Hepatitis-A and Rubella (3-4 months)
 * Moral separate doses of Measles and Mumps are currently UNAVAILABLE – Ask Merck to provide them again!
IF THE VACCINE YOU ARE QUESTIONING IS NOT LISTED ABOVE, IT DOES NOT USE ABORTED FETAL CELL LINES
 Copy Permissible w/ Credit Children of God for Life ©

NOTE: None of the 2020-2021 Flu vaccines use aborted fetal material.

#2. The [U.S. Supreme Court labeled vaccines unavoidably unsafe](#) in 2011. There has never been a randomized, double blind, placebo controlled study (RDBPC, the gold standard) done on any vaccine in the childhood schedule. This means that a **true, inert placebo (saline) has not been used** to test any of the vaccines on the childhood schedule. Instead, vaccines are often tested against other vaccines made up of the same toxic ingredients.

#3. Autism can be induced by vaccines. Hannah Poling's family was awarded millions of dollars from the US government funded vaccine court for [her vaccine induced autism](#) in 2010. Hundreds of thousands, if not millions of parents aren't crazy when we say we watched our kids regress into autism, post vaccines. To read the science behind it, explore [here](#) or [here](#).

A top CDC scientist who is pro-vax, William Thompson, [blew the whistle on the CDC](#) when he came forward with [documents](#) proving that the CDC instructed him and other top CDC officials to DESTROY CDC scientific studies / evidence showing that autism in African American boys was over 320% more likely to occur when given the MMR as toddlers. This is more than statistically significant.

Also, in March of 2020, the [CDC lost a law suit](#) because they were NOT able to provide documentation proving that vaccines don't cause autism.

#4. Doctors and nurses mean well, but **are not taught the risks or ingredients of vaccines in med school**, which is [largely funded by pharmaceutical companies](#) that make vaccines. Numerous doctors, even top level immunologists, report that in med school they are only taught the CDC schedule, (the myth) that vaccines saved the world, and how to convince parents to vaccinate. [They aren't taught about vaccine ingredients](#), the studies showing vaxxed are healthier than unvaxxed (which is disproven [here](#)), or the risks of vaccination. Plus, doctors are offered more money for higher rates of vaccination in their practice.

It's understandable why western medicine professionals are not willing to look at the possibility of vaccines causing more harm than good, because their goal is to help people.

Entertaining the idea that vaccinations hurt more than they help would cause a vocational and moral crisis, so most aren't willing to even explore the topic. The few who do are penalized, like [Dr. Paul Thomas](#), who published a study showing his unvaxxed patients are healthier.

Blue Cross Blue Shield pays your doctor a \$40,000 bonus for fully vaccinating 100 patients under the age of 2. If your doctor manages to fully vaccinate 200 patients, that bonus jumps to \$80,000.

But here's the catch: Under Blue Cross Blue Shield's rules, pediatricians lose the whole bonus unless at least 63% of patients are fully vaccinated, and that includes the flu vaccine. So it's not just \$400 on your child's head—it could be the whole bonus. To your doctor, your decision to vaccinate your child might be worth \$40,000, or much more, depending on the size of his or her practice.

AWAKEN
TO OUR AWFUL SITUATION

#5. Untrustworthy Health Organizations: The CDC is the one pushing mandated vaccines, yet the CDC OWNS 56 vaccine tech patents and they profit off the sales. This is a [conflict of interest](#). Also, after the 1986 National Childhood Vaccine Injury Act, the Department of Health and Human Services was required to monitor and improve the safety and efficacy of childhood vaccines. The DHHS was **supposed to provide a report to congress every two years** about ongoing vaccine safety. **In 30 years, the DHHS produced zero reports** and refused to respond to FOIA requests about this until [they lost a law suit in November of 2018](#).

#6. Fewer than 1% of vaccine adverse events are reported to VAERS, the Vaccine Adverse Event Reporting System, according to a 2010 [Harvard study](#) commissioned by the US Department of Health and Human Services, conducted 2006 - 2009 with 715,000 patients. After hearing the results, the CDC stopped returning Harvard's numerous calls. In April of 2021, [two separate data points](#) supported this pathetic 1% reporting statistic, and confirmed that this primary US vaccine safety system is failing. Since only 1% of vaccine injuries and deaths are being captured in VAERS, that means you can throw two zeros at the end of any VAERS data for a more reasonable number of who is being injured or killed by a vaccine. This means that the 9,048 reported COVID VACCINE deaths (as of 7/11/2021) are actually closer to around 904,800 deaths from Covid shot.

#7. Vaccine induced herd immunity is a myth. The vast majority of [adults are not up to date](#) on boosters according to the CDC. Yet we don't see many people getting these diseases. Non vaccinated people should be dying left and right if vaccine-induced herd immunity is true. Instead, non Vaxxed kids are far healthier than Vaxxed. See the study done in the movie [Vaxxed 2: The People's Truth](#).

#8. CDC refuses to conduct or study a Vaxxed vs unVaxxed study. And they admit it [here](#). Top pro vax scientists refuse to debate vaccine efficacy or safety publicly. Numerous scientists, doctors and parents have repeatedly asked for this study or debate for decades. Why does the CDC refuse to compare the vaccinated against the unvaccinated? Because they don't want to see the results that [unvaxxed people are actually healthier](#).

#9. No liability for Pharma. Pharmaceutical companies can not be sued for vaccine injury. The [1986 National Childhood Vaccine Injury Act](#) made Pharma immune to all liability. Why?! Well, Pharma was getting sued so much, that they threatened the government they'd stop making vaccines unless the government protected them from the lawsuits. So now it's nearly impossible to win when you go through shady "vaccine court," which doesn't follow US legal proceedings,

Figure 5. Analysis 5. Cumulative office visits in the vaccinated (orange) vs. unvaccinated (blue) patients born into the practice: the clarity of the age-specific differences in the health fates of individuals who are vaccinated (2763) compared to the 561 unvaccinated in patients born into the practice over ten years is most strikingly clear in this comparison of the cumulative numbers of diagnoses in the two patient groups. The number of office visits for the unvaccinated is adjusted by a sample size multiplier factor (4.9) to the expected value as if the number of unvaccinated in the study was the same as the number of vaccinated.

allows few through, and takes 10 years. It's a joke. Pharma has no liability, they're not held accountable to make safe products, like car seat makers do, or any other product manufacturer.

Even though 2/3 of applicants have been denied compensation, [\\$4 billion dollars have been awarded to vaccine victims](#) for their vaccine injuries.

Also, Pharma companies [spend more on marketing than on researching](#) vaccines. Where is the accountability? There is none.

#10. Vaccines aren't as effective as people think. An entire US Navy ship was quarantined out at sea for several months when [many of the sailors came down with the mumps](#). **100% of them were vaccinated** against mumps. So much for vaccine-induced herd immunity!

#11. Aluminum is a dangerous neurotoxin and it's in vaccines. One vaccine alone, Hep B, has [14 times the amount of FDA approved aluminum](#). What?! Many vaccines contain [aluminum](#).

Is Aluminum In Vaccines Safe?

If a premature baby receives more than 10 mcg of aluminum in an IV, it can accumulate in the bones and brain, and can be toxic. The FDA maximum limit for aluminum received in an IV is 25 mcg per day. The suggested aluminum per kg of weight to give to a person is up to 5 mcg (a 5 pound baby should get no more than 11 mcg of aluminum). Anything that has more than 25 mcg of aluminum is "supposed" to have a Warning label "This product contains aluminum that may be toxic..."

Research indicates that patients with impaired kidney function, including premature neonates, who receive parenteral levels of aluminum at greater than 4 to 5 mcg/kg/day accumulate aluminum at levels associated with central nervous system and bone toxicity. Tissue loading may occur at even lower rates of administration.

• 8 pound healthy baby	18.2 mcg
• 15 pound healthy baby	34.1 mcg
• 30 pound healthy toddler	68.1 mcg
• 50 pound healthy child	113.0 mcg
• 150 pound adult	340.5 mcg
• 300 pound adult	794.5 mcg

So how much aluminum is in the vaccines that are routinely given to children?

• Hib (PedVaxHib brand only)	225 mcg
• Hepatitis B	250 mcg
• DTaP (varies with manufacturer)	170 – 625 mcg
• Pneumococcus	125 mcg
• Hepatitis A	250 mcg
• HPV	225 mcg
• Pentacel (DTaP, HIB & Polio combo vaccine)	330 mcg
• Pediarix (DTaP, Hep B & Polio combo vaccine)	850 mcg

Hepatitis B vaccine is recommended for all infants at birth and contains 250 mcg aluminum. This one vaccine alone is **±14 TIMES THE AMOUNT OF ALUMINUM THAT IS FDA-APPROVED.**

CDC recommends up to 8 vaccinations at 2, 4 & 6 months for a total of >1,000 mcg of aluminum. This amount is above the minimum for a 350 pound adult.

#12. A polio vaccine side effect is... polio. 🤔 “We have known now, since 1961 in the United States, and prior to that in other countries, that the live virus vaccine for polio does cause the disease itself.” - Jonas Salk, Creator of Polio Vaccine, in a [1978 CBC Interview](#)

In 2017, the number of [children paralyzed by the polio VACCINE surpassed the number of children paralyzed by polio.](#)

#13. Many of the ingredients are simply dangerous. Antifreeze, MSG, Mercury, etc. 🤢 Many doctors can't name any, let alone all the [ingredients](#). Yet we have been taught that this is good for us. After swallowing many of these components, poison control is to be called! Hazardous waste bags are needed to throw these items away, yet we are [injecting this crap](#) into our bodies.

Do you know what's in a vaccine?

Aluminum

Implicated as a cause of brain damage; suspected factor in **ALZHEIMER'S DISEASE**, dementia, seizures and comas. Allergic can occur on the skin.¹

Ammonium Sulfate [salt]

Suspected gastrointestinal, liver, nerve and respiratory system **POISON**.

Beta-Propiolactone

Known to cause **CANCER**. Suspected gastrointestinal, liver, nerve and respiratory, skin and sense organ **POISON**.

Gelatin

Produced from selected pieces of calf and cattle skins, de-mineralized cattle bones and pork skin. **ALLERGIC** reactions have been reported.¹

Gentamicin Sulfate and Polymyxin B [antibiotics]

ALLERGIC reactions can range from mild to life threatening.¹

Genetically Modified Yeast, Animal, Bacterial and Viral DNA

Can be incorporated into the recipient's DNA and cause unknown **GENETIC MUTATIONS**.

Glutaraldehyde

Poisonous if ingested. Causes **BIRTH DEFECTS** in experimental animals.

Formaldehyde [formalin]

Major constituent of embalming fluid; poisonous if ingested. Probable carcinogen; suspected gastrointestinal, liver, respiratory, immune, nerve and reproductive system **POISON**.

Human and Animal Cells

Human cells from aborted **FETAL TISSUE** and human albumin. Pig blood, horse blood, rabbit brain, guinea pig, dog kidney, cow heart, monkey kidney, chick embryo, chicken egg, duck egg, calf serum, sheep blood and others.

Latex Rubber

Can cause life-threatening allergic reactions.¹

Mercury [thimerosal]

One of the most poisonous substances known. Has an affinity for the brain, gut, liver, bone marrow and kidneys. Minute amounts can cause nerve damage. Symptoms of mercury toxicity are similar to those of **AUTISM**.

Micro-Organisms

Dead and alive **VIRI AND BACTERIA** or their toxins. The polio vaccine was contaminated with a monkey virus, now turning up in human bone, lung-lining (mesothelioma), brain tumors and lymphomas.

Monosodium Glutamate [MSG | glutamate | glutamate acid]

A **NEUROTOXIN** that's being studied for mutagenic, teratogenic (developmental and monstrosities) and reproductive effects. Allergic reactions can range from mild to severe.¹

Neomycin Sulfate [antibiotic]

Interferes with vitamin B6 absorption. An error in the uptake of B6 can cause a rare form of epilepsy and mental retardation. **ALLERGIC REACTIONS** can range from mild to life threatening.¹

Phenol | Phenoxyethanol [2-PE]

Used as anti-freeze. **TOXIC** to all cells and capable of disabling the immune system's primary response mechanism.

Polysorbate 80

Know to cause **CANCER** in animals.

Tri [n] Butylphosphate

Suspected kidney and nerve **POISON**.

¹ When babies are hours or days old it is impossible to know if they have an allergy.

#14. Vaccines are not tested for cancer or fertility impairment! What?! Section 13.1 of every vaccine [insert](#) states “has not been tested for carcinogenic, mutagenic potential or for impairment of fertility.” 🤔

What is section 13.1?

Vaccine inserts have variations of the below phrase:

13 NON-CLINICAL TOXICOLOGY

13.1 Carcinogenesis, Mutagenesis, Impairment of Fertility

DAPTACEL has not been evaluated for carcinogenic or mutagenic potential or impairment of fertility.

What does that mean?

That the manufacturer has not evaluated if its product:

- has carcinogenic potential

carcinogenic A cancer-causing substance or agent.

- has mutagenic potential

Mutagen, any agent capable of altering the genetic constitution of a cell by changing the structure of the hereditary material, **deoxyribonucleic acid (DNA)**.

- impairs fertility

Fertility is the natural capability to produce offspring.

#15. Vaccines **didn't save the world from disease.** Improved sanitation and a higher quality of food and water is [what led to the decrease in deaths from disease](#). More information on this in Dr. Suzanne Humphries' book, [Dissolving Illusions](#). What cured Scarlet Fever and Typhoid? Not vaccines.

Whooping Cough

Diphtheria

Measles

Scarlet Fever

Typhoid Fever

Polio
